EXECUTIVE SUMMARY

Fiscal year 2018 was largely a good year for investors in U.S. equity markets, up 17.9%. Driven by solid corporate earnings and continuing positive economic reports. International equity markets experienced some headwinds: developed markets were up 2.74% and emerging markets down -0.81%. Fixed income results lagged with the Bloomberg Barclays Aggregate returning -1.22% for the year and non-U.S. fixed income returning -1.57%.

The D.C. College Savings Plan continued its growth in fiscal year 2018. Fueled by strong performance in the financial markets, assets rose to $619.7 million from $534.4 million, an increase of 15.94%. We added 3,920 new accounts. New contributions increased by $22 million or 31.42%. At fiscal year end, the Plan had 25,812 accounts, with an average account balance of $24,007.

Effective January 2018, the new Federal Tax Law expanded College Savings Plans to include Kindergarten through 12th Grade (K-12) tuition expenses. Account owners can use assets to pay for qualified K-12 expenses at a private, public or parochial school, up to $10,000 per year per student. The DC Colleges Savings Plan website provides more details.

Ascensus continued their very effective communication and education campaigns that covered a wide range of topics including how to enroll, investment strategies and Ugift (a program that allows friends and family to contribute to any account). These outreach initiatives were communicated using emails, digital and newspaper advertisements.

We are excited about continuing our annual essay contest for ninth grade students in District public and charter high schools. The contest this year was our seventh consecutive contest. Since inception $318,000 has been awarded to 180 students.

The Office of Finance and Treasury regularly reviews the performance of the funds with our independent consulting firms, Winston Lowe, LLC and Capital Cities. The operations of the Plan and its assets are examined each year by an independent accounting firm. For the thirteenth consecutive year, the Plan received an unqualified (clean) opinion from the auditor. BCA Watson Rice became the auditor in fiscal year 2017. The audited financial statements are included in this report as an appendix.

I hope the information in this report helps you gain a better understanding of the District’s College Savings Plan, as well as the oversight performed on an ongoing basis by the Office of Finance and Treasury. We will continue to manage the Plan prudently for our participants.
Plan Highlights

Program management from a 529 expert
Fiscal year 2018 was a strong year for growth for the DC College Savings Plan. The Plan continues to see impressive increases in assets, contributions, and enrollments. The Plan’s long time Program Director, Brenda Mathis, retired in December 2018 after 16 years of great service and dedication to the program. Under Brenda’s leadership the Plan grew from $0.00 assets in November 2002 to over $600 million. Stepping into her role is Rodney Dickerson. Rodney has over 20 years of experience overseeing various retirement and savings programs in his career. He is looking forward to delivering the same standard and due diligence as Brenda. With Rodney’s extensive background and leadership the Plan is in great hands for continued success into the future.

Assets
Assets under management in the DC College Savings Plan reached $619.7 million in fiscal year 2018, a growth rate of 15.94% over fiscal year 2017.

Enrollment
In fiscal year 2018 we added 3,920 new accounts. Our Community and Employer Outreach efforts helped grow Plan awareness inside the District.
Contributions
Contributions to current and new participant accounts in 2018 totaled $91.7 million. A strong sales team and consistent, broad messaging helped drive brand awareness and sales.

Access
An important aspect of the DC College Savings Plan is making all D.C. residents, regardless of socioeconomic background, aware of the affordability of higher education. For the past year, Community Outreach and Marketing have concentrated efforts in Wards 7 and 8. Wards 7 and 8 have the lowest per capita income in the District, and correspondingly, the fewest DC College Savings Plan participants of any Ward in the city. This year, to increase engagement, 208 events were staffed throughout the District with representation in all Wards. On-going efforts will focus and include Wards 7 and 8 to ensure all families can learn about the benefits of the DC College Savings Plan.

Ugift® – Give College Savings
Ugift is an easy, free-to-use service that lets family and friends give the meaningful gift of money into a DC College Savings Plan account. Saving for college can take a village, and Ugift makes it easy for Account Owners to get help from their network of family and friends. Instead of giving toys, clothes, or other traditional gifts that a child will outgrow, gift givers get the satisfaction of knowing that their generosity can make a lasting impression. Total Ugift contributions in 2018 totaled $2,029,298.29 and benefitted 749 beneficiaries.

Upromise®
Upromise is a rewards program that believes everyone should have a chance to go to college and pursue his or her dreams. Since 2001, Upromise has helped its members earn cash back for college from eligible purchases that they most likely make every day. By the end of FY18, a total of 160 DC College Savings Plan Account Owners linked their Upromise accounts and added over $29,226 in Upromise savings to their accounts.
Description of Investment Options

The DC College Savings Plan is designed to offer various alternatives to meet the risk tolerance and investment objective of most investors. Participants have the option to choose one or any combination of the following three tiers of investment options:

1. The Year of Enrollment Portfolios, provides a low cost, diversified investment allocation, which becomes more conservative as the beneficiary approaches their enrollment date.

Within the Year of Enrollment Portfolios, there are seven portfolios, with asset allocations designed to be appropriate for a certain number of years until the beneficiary is enrolled in college. The further the beneficiary is from enrollment the greater the equity exposure. Every 6 months the Year of Enrollment Portfolios will decrease the equity exposure and increase the fixed income or cash preservation exposure. All the underlying investments are passively managed (track specific indexes) to keep expenses low.

2. The Individual Portfolios, a diverse group of investment options which you can use to create your personal investment allocation mix by investing in one or more of the Portfolios.

In the Individual Portfolios, there are eight Investment Options with a diverse range of investment strategies. The portfolio strategies include Passively Managed (index tracking) and Actively Managed (Manager determines allocation mix), Domestic and International Fixed Income Options, Domestic and International Equity Options, and even Domestic and International Socially Conscious Options.

3. The Principal Protected Portfolio, focuses on protecting the principal you invest by allocating your contributions and earnings to a Funding Agreement issued by Ameritas Life Insurance Corp. to the District of Columbia Section 529 Plan Trust. The current Funding Agreement provides interest credited daily at a minimum annual effective rate of interest of 1%, and provides the opportunity for additional interest. The principal and the stated interest rate are insured by the contract provided by Ameritas Life Insurance Corp.

The Principal Protected Portfolio provides an option for those whose primary investment objective was the protection of the principal they invest. This Portfolio can also be used along with the Individual Portfolios in creating a personal diversified investment allocation mix.

Please reference the Program Disclosure Booklet for more details.

Accumulations (including contributions and earnings) under the Funding Agreement for the Principal Protected Portfolio credited to the Plan are subject to the claims-paying ability of Ameritas Life Insurance Corp.

3. Principal Protected Portfolio

This portfolio is invested intentionally to provide a guaranty of principal.
Aliyah Ford always knew she would attend college. What she did not know was how her family would pay for it.

Aliyah heard about a local essay contest and the first prize winner would receive $2,500 towards college. The contest, sponsored by the District of Columbia and the DC College Savings Plan, challenged local high school freshmen in the District’s Public and Public Charter schools to explain, in at least 500 words, what college means to them and how they are preparing for college.

Nearly 114 essays were submitted. Of these, 24 DC students, three from each ward, received first, second and third prizes of $2,500, $1,500 and $1,000, respectively. The money was deposited into a DC College Savings account for each student on their behalf after they claimed the prize money.

In Ward 6, the essay written by Aliyah – a Dunbar High School graduate – won first place. The $2,500 prize money helped relieved some of the financial burden of college.

Today, Aliyah attends Delaware State University, where she is a freshman studying to become a nurse. The first in her family to attend college, Aliyah hopes to start a college tradition for generations to follow.

For Aliyah’s generation, college is a necessity, studies show

According to a recent Georgetown University study, by 2020, 65% of all U.S. jobs will require training beyond high school.

Another argument for a college education: Lifetime income. College graduates will earn, on average, $1 million more in their lifetimes than those with just a high school degree, a second Georgetown University study concludes.
College saving: Not all or nothing

Of course, just as the rewards of a college education continue to grow, so does college tuition. Families across the District and nationwide struggle to save or borrow enough money to attend college and vocational schools.

Grants and scholarships – aid provided by colleges and universities that does NOT have to be paid back – covered 55% of all college costs in 2016-17, according to the College Board. The rest must come from what families can save, and what they can borrow.

Parents do not have to save the full amount for college, experts say. Even small amounts saved over time can make a big difference.

By investing in the DC College Savings Plan, over time, families can potentially earn a return on their earnings, which then get reinvested to generate even more return. Called compounding, the process rewards savers who start early. Saving small amounts over many years is often easier than trying to “catch up” when kids are older.

In the hypothetical example below, if an account owner began to save $50 a month when a child was 1 year old (with an initial contribution of $250), they could potentially have an account worth $16,494 by the time the child was college age.³

³The hypothetical example assumes college begins at age 18 and is based on a 5 percent rate of return compounded daily, and is for illustrative purposes only. It does not reflect an actual investment in any particular 529 plan or taxes, if any, payable upon withdrawal.
529 college saving plans grow in popularity

Families have several savings options. One option, 529 plans – named after Section 529 of the Internal Revenue Service Code – was designed specifically to make saving for education easier. Each state, as well as the District, sponsors its own 529 plan.

The DC College Savings Plan offers special benefits just for District taxpayers. For example, married couples who file jointly and have separate accounts can get up to an $8,000 tax deduction; individuals can get a tax deduction of up to $4,000.

Savings in DC’s 529 plan can be used at most 2- and 4-year public and private colleges, universities and vocational schools worldwide, not just in DC to pay for:

- Tuition
- Room and board
- Books
- Fees
- Computers, and much more

Other DC College Savings Plan benefits:

- Tax-deferred growth: Earnings grow free of federal and state taxes
- Tax-free distributions for qualified expenses
- Initial contribution of just $25 to open an account
- Online account access 24/7
- Substantial gift tax and estate planning advantages, and more.

Recent IRS changes allow 529 use for K-12 tuition, too

In 2018, a broad-based federal law, H.R. 1, allowed families to use 529 savings for private, public or parochial K-12 education. Families may withdraw up to $10,000 per year per student tax-free for qualified K-12 expenses.

For more details on opening a DC College Savings Plan, visit dccollegesavings.com or call 800-987-4859. Savers are always urged to read the Program Disclosure Booklet and consider the information carefully before investing.

Pursuant to D.C. Regulations, 49 DCR 9859, November 1, 2002, made final at D.C. Mun. Regs, tit. 9, sec. 155 (2004), the CFO entered into a Declaration of Trust, establishing the DC College Savings Program Trust, an instrumentality of the District of Columbia. In addition, pursuant thereto, the CFO or the Treasurer, as designated by the CFO, shall serve as the fiduciary and Trustee of the District of Columbia College Savings Program Trust.

The CFO or the Treasurer, as designee of the CFO, is responsible for selecting a qualified financial institution as the program manager to administer the Program. In addition, the CFO or the Treasurer, as designee of the CFO, is responsible for approving the selection of the underlying investments in the Trust. The CFO or the Treasurer of the District of Columbia, as designee of the CFO, is responsible for the administration of the Program.

Ascensus provides the District full 529 program management, recordkeeping, investment management, marketing and customer service that makes saving for college easy and intuitive.

Ascensus helps more than 8 million Americans save for the future—retirement, education, and healthcare—through technology-enabled solutions. With more than 35 years of experience, the firm offers tailored solutions that meet the needs of asset managers, banks, credit unions, state governments, financial professionals, employers and individuals. Ascensus supports over 54,000 retirement plans, more than 4.6 million 529 education savings accounts and a growing number of ABLE savings accounts. It also administers more than 1.5 million IRAs and health savings accounts. As of December 31, 2018, Ascensus had over $193 billion in total assets under administration. For more information about Ascensus, visit ascensus.com.

Ascensus has chosen BNY Mellon and Taylor Communications to provide the DC College Savings Plan with:

- BNY Mellon – Cash custody and trading
- Taylor Communications – Print vendor for statements, confirmations and correspondence

In November 2016, Ascensus was selected by the trustee as program manager for a new five year contract through November 2021. After that time, the agreement between the trustee and Ascensus may be continued or terminated (in which case a different program manager may be selected).
David Rydzeski is an Institutional Relationship Manager for the DC College Savings Plan, the District’s own 529 college saving program. He helps educate human resource and benefit professionals, school counselors and community groups on how to promote and encourage college savings.

Prior to Ascensus, David was responsible for the distribution of various investment products, both to institutions and retail investors. He now puts his career-long financial experience to work helping DC families save for college.

2018 marks the first full year since the conversion to Ascensus, and through several new and key contacts, David has been able to showcase the DC College Savings Plan at 208 different events.

His outreach efforts covered every Ward in the District and included 96 workshops at a variety of employer and community venues. In addition to the workshops, which help explain the nuances of the program to the parents and families in attendance, David also staffed information tables at over 65 different venues to help raise awareness on the importance of saving for college and the benefits of the DC College Savings Plan.

To learn more about our outreach efforts, please visit the Community tab on our website, www.dc529.com.

Mr. Rydzeski is a registered representative of Ascensus Broker Dealer Services LLC, 877-529-2980, 95 Wells Ave, Newton MA (member FINRA/SIPC) and is not employed by the District of Columbia.
Rodney Dickerson, Program Manager, manages the District’s OPEB Fund. He is also responsible for monitoring the 401(a) Retirement Plan’s operations, including all Plan communications and facilitates quarterly meetings with the vendor. Mr. Dickerson participates in the quarterly 529 investment meetings, as well as crafting and reviewing communication materials.

Merzie Davis, Financial Manager, is responsible for managing the day-to-day operations of the DC College Savings Plan and the 457(b) Deferred Compensation Plan. Mr. Davis also participates in the quarterly 529 investment meetings.

Eugenia Collis, Associate Treasurer for Asset Management, Office of Finance and Treasury (OFT), Ms. Collis oversees the District’s investment programs, including the general fund, the District’s 401(a) and 457(b) retirement programs, the 529 College Savings program and the District’s OPEB Fund program. Ms. Collis has oversight of the 529 plan, and staff that manages the program.

Bruno Fernandes, DC Treasurer and Deputy CFO, manages multiple financial and investment programs for the District government. In addition to overseeing the administration of the DC College Savings Plan, he has oversight of the Office of Finance and Treasury which manages the District’s cash and liquid assets, all cash disbursments, banking relationships, the 457(b) Deferred Compensation Plan, the 401(a) Retirement Plan, and the Other Post Employment Benefits Fund (OPEB).

Brenda Mathis, Program Director, is responsible for managing the DC College Savings Plan, 457 Deferred Compensation Plan, and the 401(a) Retirement Plan. Ms. Mathis provides oversight of the investments and operations, and she manages the audit of the DC College Savings Plan. She ensures successful delivery from Ascensus as outlined in the Service Agreement.

Joseph Nzioki, Financial Analyst, works closely with Brenda Mathis, program director, and Rodney Dickerson, program manager on the 401(a) Retirement Plan and OPEB Fund. He assists with the monthly asset reconciliation for the 401(a) and OPEB Fund. Mr. Nzioki participates in the quarterly 529 investment meetings.

INDEPENDENT AUDITOR’S REPORT

To the Trustee of
The District of Columbia 529 College Savings Program Trust

Report on the Financial Statements

We have audited the accompanying statement of fiduciary net position of the Participant Fund and Administrative Fund of the District of Columbia 529 College Savings Program Trust (the “Trust”) as of September 30, 2018, and the related statement of changes in fiduciary net position of the Participant Fund and Administrative Fund for the year then ended and the related notes to the financial statements, which collectively comprise the Trust’s financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Trust’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Trust, as of September 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 26, 2018 on our consideration of the Trust’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Trust’s internal control over financial reporting and compliance.

GOVERNMENT OF THE DISTRICT OF COLUMBIA
529 COLLEGE SAVINGS PROGRAM TRUST
MANAGEMENT’S DISCUSSION AND ANALYSIS (PARTICIPANT FUND)
(UNAUDITED)
YEAR ENDED SEPTEMBER 30, 2018

The following presents management’s discussion and analysis of the financial performance of the Government of the District of Columbia’s (the District) College Savings Program (the Program) for the fiscal year ended September 30, 2018. This discussion and analysis should be read in conjunction with the financial statements and note disclosures.

Basic Financial Statements

The Program is accounted for as a private purpose trust fund of the District. The District has overall fiduciary responsibility to program participants to administer the operations of the Program. In accordance with GASB 34, the Program’s basic financial statements, which are reported on the accrual basis of accounting, are the: (a) Statement of Fiduciary Net Position and (b) Statement of Changes in Fiduciary Net Position (c) Notes to the Financial Statements.

- The Statement of Fiduciary Net Position presents the assets, liabilities, and net position of the Program.
- The Statement of Changes in Fiduciary Net Position presents the additions to, and deductions from, the Program’s net position.
- The financial statements also include notes that provide more detailed data and explanations for some of the information in the financial statements.

Financial Highlights

- Investments increased by $84,854,737 or 16.06%
- Participant contributions increased by $21,816,302 or 31.20%
- Net investment income decreased by $6,364,671 or 12.68%
- Distributions to participants increased by $4,854,216 or 11.13%

Financial Analysis – Fiduciary Net Position

The Program’s primary asset was investments, which totaled $613,374,182. Investments increased by 16.06% over fiscal year 2017 because of asset growth and the excess of contributions over distributions to participants. Market conditions were favorable in fiscal 2018, and as a result, fourteen (14) of the sixteen (16) Program funds had positive rates of return. The Program’s funds invest in one or more underlying investments. The underlying investments are primarily held in mutual funds and a principal protected portfolio.

As shown in Table 2 - Investment by Fund with Rates of Returns as of September 30, 2018, the top four Program investments were held in the U.S. Total Stock Market Index Portfolio ($132,266,280 or 21.6%); DC College Savings 2022 Portfolio ($60,697,050 or 9.9%); DC College Savings 2025 Portfolio ($57,835,700 or 9.4%); and DC College Savings 2028 Portfolio ($56,396,873 or 9.2%).

Receivables increased by $978,359 or 113.17% over the prior fiscal year because of an increase in trades receivable and interest and dividend receivables at the end of the year.

Total liabilities increased by $90,693 or 27.82% over the prior fiscal year primarily because of an increase in trades payable and amount payable for program management fees at the end of the year.

### Financial Analysis – Changes in Fiduciary Net Position

The Program’s contributions increased by $21,816,302 or 31.20% over the prior fiscal year. The year-over-year changes are a reflection of the investment decision made by participants and the actions of the program manager to process these transactions. The Program had an increase in participants from 23,307 in fiscal year 2017 to 25,871 in fiscal year 2018.

The Program had a net investment income of $43,810,142 in fiscal year 2018, which is a 12.68% decrease over fiscal year 2017. The decrease in net investment income was primarily due to a decrease in the net appreciation in the fair value of investments from $44.4 million in fiscal year 2017 to $39.6 million in fiscal year 2018. Additionally, interest and dividends decreased from $7.9 million in fiscal year 2017 to $4.7 million in fiscal year 2018. Overall, fourteen (14) of the sixteen (16) funds of the Program reflected positive rates of return, which contributed to a net appreciation in the fair value of investments for the year. For fiscal year 2018, the Program’s investments collectively had a weighted average rate of return of 6.32%.

Distributions to participants in 2018 were $48,462,909 or 11.13% increase over fiscal year 2017. This increase is due to individual participant behavior and the timing of distributions to participants as funds are utilized to pay for college expenses or other purposes.

Other expenses include program management fees, and administrative and maintenance expenses. The overall increase in other expenses is primarily due to an increase in program management fees from $0.6 million in fiscal year 2017 to $1.4 million in fiscal year 2018 and a decrease in maintenance expenses from $0.4 million in fiscal year 2017 to $0.2 million in fiscal year 2018. During fiscal year 2017, the Program changed program management and the various investment options, and consequently, these fees including the underlying investment management fees were realigned. While program management fees increased, the underlying investment management fees decreased from $2.1 million to $0.5 million. For fiscal year 2018, program management and administrative fees were on average 0.25% and 0.05%, respectively, of the funds average daily net asset value. Underlying investment management fees ranged from 0.00% to 0.44% for each investment option.
Contact Information

GOVERNMENT OF THE DISTRICT OF COLUMBIA
529 COLLEGE SAVINGS PROGRAM TRUST
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 1 ORGANIZATION AND PURPOSE

The District of Columbia (DC) College Savings Program (the Program) was created by D.C. Law 47-4501 et seq., as amended and pursuant to D.C. Regulations, 49 DCR 9859, November 1, 2002 made final at D.C. Mun. Regs. title 9 sec. 155 (2004), as a Trust of the District of Columbia Government (the District). The Program enables participants to save for qualified higher education expenses. On December 22, 2017, federal tax bill H.R.1 was signed into law and expanded the definition of “qualified higher education expenses” to include qualified K-12 tuition expenses at a private, public or parochial school up to specified expense limitations per student. The Chief Financial Officer of the District of Columbia or his/her designee is the Trustee of the Plan. The current designee is the D.C. Treasurer. The Trustee is responsible for entering into contracts for program management services, adopting program administration rules and regulations, and establishing investment policies. The Program is managed by Ascensus College Savings Recordkeeping Services, LLC (ACSR) and its affiliates (collectively, Ascensus College Savings) and they have the overall responsibility for the day-to-day operation of the Program including recordkeeping, investment management, administrative services, and marketing. The management agreement between Ascensus College Savings and the D.C. Treasurer expires November 15, 2021 with the option to extend for two one-year periods, unless earlier termination.

The Program is available to both District of Columbia and non-District of Columbia residents. It is a qualified tuition program that allows participants to make contributions into sixteen (16) different investment options. The account balance limit is $500,000 per beneficiary. Accounts are subject to market investment risk, except for those that are invested in the Principal Protected Portfolio, which focuses on protecting the invested principal. As of September 30, 2018, the Plan had 25,871 participants with a net asset value of $619,702,905. Fees and expenses of the program are paid by each account owner and vary according to the Portfolio, in which they are invested.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation
The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB).

Reporting Entity
The accompanying financial statements report the fiduciary net position and the changes in fiduciary net position of and for the fiscal year ended September 30, 2018. For financial reporting purposes, the Program includes all funds over which the Program exercises, or has the ability to exercise oversight authority.

Measurement Focus, Basis of Accounting and Financial Statement Presentation
The Program reports the activity of the District of Columbia College Savings Program as a private-purpose trust fund, which is a type of fiduciary fund. Private-purpose trust funds account for transactions of trust arrangements in which the principal and income benefit individuals, private organizations, or governments. The financial statements of the fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when a liability is incurred.
Investment Valuation and Income Recognition
Portfolio investments in the underlying funds are valued at the closing net asset value per share (unit) of each underlying fund on the day of valuation. The stability of principal portfolio is valued in accordance with the terms of the funding agreement, inclusive of accrued interest.

Security transactions, normally in shares of the underlying funds, are accounted for on the trade date. Realized gains and losses are reported on the identified cost basis. Income and capital gains distributions, if any, from investments in the underlying funds are recorded on the ex-dividend date. Expenses included in the accompanying financial statements reflect the expenses of each portfolio and do not include any expenses associated with the underlying funds.

Units represent the beneficial interest of each participant in the net assets of a Portfolio. Contributions to and distributions from the portfolios are subject to terms and limitations defined in the Participation Agreement between the participant and the Trust. Contributions and distributions are recorded upon receipt of the participant’s instructions in good order, based on the next determined net asset value per unit. Net investment income and net realized gains accumulate in the net asset value of each Portfolio and are not separately distributed to participants.

Fair Value Measurements
Government Accounting Standards Board Statement number 72 (GASB 72), Fair Value Measurements and Application, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosures about the use of fair value measurements. GASB 72 established a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 – observable market inputs that are unadjusted quoted prices for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 – inputs-other than quoted prices included within Level 1 - that are observable for the asset or liability, either directly or indirectly (for example, quoted prices for similar assets or liabilities in active markets).

Level 3 – unobservable inputs (including the District’s own assumptions in determining the fair value of investments).

Cash and Cash Equivalents
Balance includes cash on deposit and short-term highly liquid investments that are (a) readily convertible to known amounts of cash and (b) so near their maturities that they present insignificant risk of changes in value because of changes in interest rates.

Receivables and Payables for investments purchased and sold
The receivables and payables represent transactions related to the purchase and sale of investments. However, the actual transfer of cash did not occur until the subsequent period.
NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates
The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expense during the reporting period. Actual results could differ from those estimates.

Income Tax Status
The Program is exempt from federal taxes in accordance with Section 529 of the Internal Revenue Code. D.C. resident participants are exempt from state and local taxes when earnings from the Program are used for qualified expenses. Non-D.C. residents may be subject to state and local taxes in their jurisdiction.

NOTE 3 INVESTMENTS

Investment Policy and Guidelines
The Program offers account owners, several Investment Portfolios that provide a range of risk and return characteristics, each unique to aid in proper diversification. Three different types of Investment Portfolios are offered to account owners: 1) Year of College Enrollment Portfolio, 2) Individual Portfolios, and 3) Principal Protected Portfolio. Once an account owner’s Investment Portfolio(s) is selected for a particular contribution, IRS guidance dictates the rules through which an account owner can move money or transfer from one Investment Portfolio to another.

Year of College Enrollment Portfolio: The Portfolios offer account owners pre-diversified Investment Portfolios that become more conservative as the beneficiary nears his/her intended year of high school graduation. The Year of College Enrollment Portfolios represent a weighted allocation among a predetermined number and type of investment strategies, as follows:

529 COLLEGE SAVINGS PROGRAM TRUST
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 3 INVESTMENTS (Continued)

Individual Portfolios: The Individual Portfolios are stand-alone options, which allow account owners to allocate their account into one or more Investment Portfolios. The goal in offering the Individual Portfolios is to provide account owners with the ability to construct diversified portfolios by asset class and investment style that match their risk tolerance, asset class preferences, time horizons and expected returns. Each portfolio invests (100%) in a single underlying mutual fund or EFT, as follows:

The Trustee reserves the right to add or replace Individual Portfolios based upon market conditions, Program Manager and Investment Consultant input, account owner response, or other factors.

Principal Protected Portfolio: The Principal Protected Portfolio focuses on protecting the principal account owners invest by allocating account owner contributions and earnings to a funding agreement issued by an insurance company that provides a guaranteed return of principal plus a minimum annualized rate of interest to the Trust. As of September 30, 2018, this portfolio was maintained in a stable value fund.
NOTE 3 INVESTMENTS (Continued)

Unrealized and Appreciated Value of the Program’s Investments

At September 30, 2018, the Program held the following investments which are stated at fair value based on fair market prices:

Total Investments                                  | $568,088,758   | $613,374,182         | $45,285,424                           |

The unrealized gain (loss) on investments as of September 30, 2018 was $45,285,424. The net appreciation in the fair value of the investments as reflected in the Statement of Changes in Fiduciary Net Position consists of the following for the year ended September 30, 2018:

- Unrealized (loss) as of September 30, 2018: $45,285,424
- Unrealized (loss) as of September 30, 2017: (19,629,078)
- Net change in unrealized gain (loss) during the year: 25,656,346
- Net realized gain (loss) during the year: 13,989,887

Net Appreciation in Fair Value of Investments: $39,646,233

The net unrealized gain consists of losses in the year of enrollment base portfolio strategies and losses in the single portfolio investment strategies. The net realized gain consists primarily of gains in age-base portfolio strategies.

NOTES TO FINANCIAL STATEMENTS  
SEPTEMBER 30, 2018

NOTE 3 INVESTMENTS (Continued)

Investment Risks

The Program’s investments are subject to the following risks common to investments:

*Custodial Credit Risk* is the risk that the Program will not be able to recover the value of its investments in the event of a failure by the counterparty to a transaction. Investments are exposed if they are uninsured, are not registered in the name of the Program, and are held by either (a) the counterparty or (b) the counterparty’s trust department or agent but not in the Program’s name. The Program’s investments for fiscal year 2018 are uninsured and unregistered and are held by the counterparty in the Program’s name, and are generally segregated by the counterparty in a manner to protect them from certain claims by creditors. The Plan also invests in mutual funds which are not generally exposed to custodial credit risks.

*Credit Risk* is the risk that an issuer to an investment will not fulfill its obligations. The Program does not invest in debt securities that have an overall quality which is less than the BBB as rated by Moody’s or Standard & Poor. The primary credit ratings of the Program’s debt securities are as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Credit Ratings</th>
</tr>
</thead>
<tbody>
<tr>
<td>iShare Core U.S. Aggregate Bond ETF</td>
<td>AAA, A, BBB, BB</td>
</tr>
<tr>
<td>Loomis Sayles Core Plus Bond Fund</td>
<td>AAA, A, BBB, BB</td>
</tr>
<tr>
<td>iShare Core S&amp;P Total U.S. Stock Market ETF</td>
<td>AAA, AA, A, BBB</td>
</tr>
<tr>
<td>Vanguard Strategies Small-Cap Equity Fund</td>
<td>AAA, AAA, BBB</td>
</tr>
<tr>
<td>Principal Protected Plus</td>
<td>A</td>
</tr>
</tbody>
</table>

*Interest rate risk* is the risk that changes in interest rates will adversely affect the fair value of an investment. The Program does not invest in any investment account that has an average maturity exceeding ten years for its Bond Mutual Funds. The interest rate sensitivity, defined as duration, for each fund is as follows:

<table>
<thead>
<tr>
<th>Fund</th>
<th>Average Duration</th>
</tr>
</thead>
<tbody>
<tr>
<td>iShare Core U.S. Aggregate Bond ETF</td>
<td>7.38</td>
</tr>
<tr>
<td>Loomis Sayles Core Plus Bond Fund</td>
<td>5.89</td>
</tr>
<tr>
<td>iShare Core S&amp;P Total U.S. Stock Market ETF</td>
<td>5.89</td>
</tr>
<tr>
<td>Vanguard Strategies Small-Cap Equity Fund</td>
<td>6.17</td>
</tr>
<tr>
<td>Principal Protected Plus</td>
<td>2.65</td>
</tr>
</tbody>
</table>

*Foreign currency risk* is the risk that changes in exchange rates will adversely affect the fair value of an investment in a foreign financial institution. The Program does not have a formal policy for limiting its exposure to changes in exchange rates. The investment fund that invests primarily in foreign financial institutions are the DFA International Sustainability Core 1 Portfólio and iShare Core International Aggregate Bond ETF. The Fund has various currency denominations. The primary currency denominations are the Franc, the Yen, and the British pound.
NOTE 3 INVESTMENTS (Continued)

Fair Value Measurements

*Equity Mutual Funds:* This investment category consists of open-ended mutual funds that are registered with the Securities and Exchange Commission (SEC). These mutual funds publish a daily NAV and transact at that price. The mutual funds held in equities are deemed to be actively traded and support classification of the fair value measurement as Level 1 in the fair value hierarchy.

*Fixed Income Mutual Funds:* Mutual funds are a pool of money invested by an investment company in a variety of instruments such as emerging markets sovereigns, government related agencies, and emerging markets corporations. This investment category consists of open-ended mutual funds that are registered with the Securities and Exchange Commission (SEC). The mutual funds are invested in high yield markets bonds that represent fixed income securities issued by corporations with credit ratings of AAA or lower. These fixed income mutual funds publish a daily NAV and transact at that price. The mutual funds held in bonds are deemed to be actively traded and support the classification as Level 1 in the fair value hierarchy.

*Guaranteed Investment Contracts:* The Guaranteed Investment Contract (GIC) is valued at the sum of the net cash contributions to the deposit account plus interest credited minus withdrawals (the Contract Value). The GIC is measured at contract value and is a contractual investment rather than a security and is not deemed to be subject to custodial credit risk. The determination of fair value includes certain unobservable inputs as well as the assessment of the projected long-term duration of the Insurance and Annuity Company through review of contract terms, and substantiated utilizing available market data. However, there is a risk that an insurance company could fail to perform its obligations under a funding agreement for financial or other reasons. These contract value of the GIC is not leveled in the fair value hierarchy table below.

The Program categorizes fair value measurement within a hierarchy established by generally accepted accounting principles. The underlying funds had the following recurring fair value measurements at September 30, 2018:

NOTE 4 ADMINISTRATIVE AND MAINTENANCE FEES

The Program assessed underlying investment, program management, state fees and an annual maintenance fee. Program management and state (administrative) fees which totaled 0.15% on the principal presented portfolio and 0.30% on all other funds were assessed. Of the total fees, the District receives 0.05% as state (administrative) fees. The annual maintenance fee is generally charged during the month of the first anniversary in which the account was opened and annually thereafter. Account owners who are residents of the District are charged an annual maintenance fee of $10.00, and non-District residents are charged an annual maintenance fee of $15.00. The annual maintenance fees are charged on a pro rata basis upon closure of an account. The Program Manager receives the $10.00 annual maintenance fee charged to District residents. Out of the $15.00 annual maintenance fee charged to non-District residents, the Program Manager receives $10 and the District receives $5.
NOTE 4 ADMINISTRATIVE AND MAINTENANCE FEES (Continued)

For Fiscal Year 2018, total program management and administrative fees assessed to account owners were $1,383,510 and $291,411, respectively. These fees are reflected in the Participant Fund Statement of Changes in Fiduciary Net Position. The District portion of the fees of $291,411 is also reflected in the Administrative Fund Statement of Changes in Fiduciary Net Position. As of September 30, 2018, the total amount not remitted to the District was $25,360.

For the Fiscal Year 2018, maintenance and enrollment fees reflected in the Participant Fund Statement of Changes in Fiduciary Net Position totaled $157,965. The District’s portion was $17,901, which is reflected in the Administrative Fund Statement of Changes in Fiduciary Net Position. As of September 30, 2018, the total amount not remitted to the District was $1,145.

The District incurred administrative expenses of $229,441 in Fiscal Year 2018, which is reflected in the Administrative Fund Statement of Changes in Fiduciary Net Position. The expenses were for the professional services and donations for scholarship. At year-end, the Administrative Fund position balance was $705,100.

NOTE 5 INVESTMENT EXPENSES

Investment expenses represent the operating expenses and load fees paid to the broker dealers. Certain fees charged by the investment funds for operating expenses and load fees are reflected in the net appreciation in fair value of investments amount in the Statement of Changes in Fiduciary Net Position. Other underlying investment fees, net of administrative and program management fees (see note 4), ranged from 0.00% to 0.44% (gross of 0.15% to 0.74%) of the fund’s average daily net asset value. Underlying investment management fees, net of administrative and program management fees, totaled $511,075, which is reflected in the Participant Fund Statement of Changes in Fiduciary Net Position.

NOTE 6 RELATED PARTY TRANSACTIONS

All the Program’s individual portfolios invest in a single underlying mutual fund or ETF managed by a third-party investment manager. The year of enrollment portfolios have a set target allocation and are invested in multiple underlying mutual funds, ETfs as well as the Ameritas Funding Agreement.

Ascensus College Savings monitors and rebalances the underlying asset allocations of the Year of College Enrollment Portfolios on a quarterly basis. The principal protected portfolio invests in a funding agreement issued by Ameritas Life.
GOVERNMENT OF THE DISTRICT OF COLUMBIA
529 COLLEGE SAVINGS PROGRAM TRUST
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible, that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statement of Fiduciary Net Position.
REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS.

To the Trustee of
The District of Columbia 529 College Savings Program Trust

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the District of Columbia 529 College Savings Program Participant and Administrative Funds (the “Trust”), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the Trust’s basic financial statements, and have issued our report thereon dated December 26, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Trust’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Trust’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Trust’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Trust's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Trust’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended solely for the information and use of the Trustees and management and is not intended to be and should not be used by anyone other than these specified parties.
