Finding the right portfolio is easy.

We do not have one portfolio that fits every investor's needs. We have many.

Year of College Enrollment Portfolios.

As their children approach college age, many investors opt for savings preservation over growth. This option automatically rebalances your asset mix to a more conservative portfolio as your child ages.

Individual Portfolios.

Take on a more active role by choosing from eight investment options to create your own personalized investment mix. Each Individual Portfolio is invested in a single underlying fund.

Principal Protected Portfolio.

This portfolio focuses on protecting the principal you invest by allocating your contributions and earnings to a Funding Agreement issued by Ameritas Life Insurance Corp. to the District of Columbia Section 529 Plan Trust. The current Funding Agreement provides interest credited daily at a minimum annual effective rate of interest of 1%, and provides the opportunity for additional interest. The principal and the stated interest rate are insured by the contract provided by Ameritas Life Insurance Corp.¹

¹Accumulations (including contributions and earnings) under the Funding Agreement for the Principal Protected Portfolio credited to the Plan are subject to the claims-paying ability of Ameritas Life Insurance Corp.

Saving is smart.

Considering a DC College Savings Plan account for your child, your grandchild, or another future scholar? Very smart decision!

After all, the cost of a college education has never been higher – and its value has never been greater. According to studies by Georgetown University:

- College graduates earn, on average, \$1 million more over their lifetimes than those with only a high school degree.²
- Two-thirds of jobs now require workers with at least some college.³

The best strategy for college saving: Start now!

The Importance of Saving for College Early

As you can see in this hypothetical chart, if an account owner began to save \$50 a month when a child was 1 year old (with an initial contribution of \$250), a 529 college savings plan could potentially have an account worth \$16,494 by the time the child was college age.⁴

³ *Five Rules of the College and Career Game*, Georgetown University Center on Education and the Workforce, 2018.

⁴ The hypothetical example assumes college begins at age 18 and is based on a 5 percent rate of return compounded annually, and is for illustrative purposes only. It does not reflect an actual investment in any particular 529 plan or taxes, if any, payable upon distribution.

A simpler way to save for college, and to save on taxes.

The DC College Savings Plan is the District's own 529 plan, with special tax advantages just for DC families like yours. After all, the more you can save on taxes, the more you can potentially have for tuition and other college costs. Benefits include:

- **A special DC tax deduction.** DC taxpayers who contribute to a DC College Savings Plan can get a District income tax deduction of up to \$8,000 for married couples or domestic partners filing jointly, and have separate accounts (\$4,000 for individuals).⁶
- **Tax-deferred growth.** Earnings grow tax deferred – free of the impact of federal and District taxes.
- **Tax-free withdrawals.** Withdrawals for qualified expenses like tuition, room and board, books, computers and more are exempt from federal and District tax, too.⁷ Qualified expenses also include K-12 tuition;⁸ apprenticeship program fees;⁹ and student loan repayment, up to \$10,000.¹⁰
- **Gift-tax benefits.** Contributions qualify for the federal \$18,000 annual gift exclusion.
- **Estate planning benefits.** Reduce your personal taxable estate by making five years' worth of gifts (up to \$90,000; \$180,000 for married couples filing jointly) in one lump sum.¹¹

⁶ Contributions by DC taxpayers in excess of the annual limit can be carried forward and deducted in future years on their DC tax return. If a participant makes a non-qualified withdrawal or a transfer/rollover to another state's program within two (2) years of opening the account, the amount of the deduction is "recaptured" and must be included in the participant's District of Columbia income.

⁷ Earnings on non-qualified withdrawals may be subject to federal income tax and a 10% federal penalty tax, as well as state and local income taxes and recapture of DC tax deductions. Tax and other benefits are contingent on meeting other requirements and certain withdrawals are subject to federal, state, and local taxes.

⁸ Funds for K-12 tuition expenses at a private, public, or parochial school are limited to tuition only up to \$10,000 per student annually.

⁹ The apprenticeship program must be registered and certified with the Secretary of Labor under the National Apprenticeship Act.

¹⁰ The loan repayment amount for an individual is subject to a lifetime limit of \$10,000.

¹¹ In the event you do not survive the five-year period, a pro-rated amount will revert back to your taxable estate.

¹⁴ A plan of regular investment cannot ensure a profit or protect against a loss in a declining market.

A child is 7X more likely to attend college if he or she has some form of college savings.¹⁵

Use your savings at most two- and four-year colleges, graduate and vocational schools nationwide.⁵

Savings can also be used for K-12 tuition, eligible apprenticeships, even to repay student loans.

⁵ An eligible institution is one that can participate in federal financial aid programs.
