## This is an IDEal opportunity to make a difference in your child's future.

Whether an infant coming home for the first time, a kindergartner smiling on the first day of school, or a high school graduate walking across the stage to shake hands with the principal, all children deserve a future full of possibilities. With IDEal — Idaho College Savings Program, you can start saving now to help the child you care about have the future they deserve.

### IDEal offers the following benefits to help you save:

- **Start with as little as \$25.** Open an IDEal account with as little as \$25 (\$15 per pay period through payroll deduction, if offered by your employer). You can make additional contributions of \$25 or more to your account whenever you like.<sup>1</sup>
- **Save on taxes.** Your account grows tax deferred, and withdrawals used for qualified educational expenses are tax free.<sup>2</sup> You can also receive an Idaho state income tax deduction of up to \$4,000 per year (\$8,000 if married, filing jointly).<sup>3</sup>
- **Manage your account with ease.** You have access to your accounts any time with our online services.
- **Choose from a variety of investments.** You can create an investment allocation that matches your goals and risk comfort level.
- **Use assets at schools around the country.** You can apply your IDEal assets to any eligible college, university, vocational school, or institution of higher education — not just schools in Idaho.
- **Invite family and friends to help.** Ugift® — Give College Savings lets you invite the special people in your life to celebrate with a gift contribution to your IDEal account.
- **Save even more.** Upromise® can help you earn college savings on your eligible everyday purchases.<sup>8</sup>

<sup>1</sup> A plan of regular investment cannot assure a profit or protect against a loss in a declining market.

<sup>2</sup> Earnings on non-qualified withdrawals are subject to federal income tax and may be subject to a 10% federal penalty tax, as well as state and local income taxes. The availability of tax or other benefits may be contingent on meeting other requirements.

<sup>3</sup> You will be required to include the entire amount of a non-qualified distribution in your Idaho taxable income. You will be required to include the amount of a transfer to another state's 529 plan in your Idaho taxable income up to the amount of your total contributions to your IDEal account in the twelve (12) months preceding the date of the rollover.

### What are 529 college savings plans?

529 college savings plans are state-sponsored programs that help you save for college tuition, certain room and board costs, books, supplies, and other qualified higher education expenses.

### How does IDEal work?

When you enroll in IDEal, you choose to invest in one or more of ten different investment options based on your investing preferences and risk tolerance. The Plan offers three choices: Age-Based Options and Fixed Asset Allocation Portfolios, managed by The Vanguard Group, a leader in low-cost investments and one of the world's largest investment management companies, and the Savings Portfolio, which is FDIC-insured.<sup>5</sup> The Savings Portfolio is managed by Sallie Mae Bank.

All contributions made to your account grow tax deferred. When it is time to pay for qualified higher education expenses, distributions are federally<sup>2</sup> and Idaho state tax free.

Anyone can open and contribute to an account on behalf of a future student. The account owner retains control of the account.

**A college degree continues to pay off.** College graduates earn, on average, nearly \$1 million more in their lifetimes than those with a high school degree.<sup>4</sup>

<sup>5</sup> The Savings Portfolio invests all of its assets in the Sallie Mae High-Yield Savings Account, ("HYSA"). The HYSA is held in an omnibus savings account insured by the Federal Deposit Insurance Corporation ("FDIC"), which is held in trust by the Idaho College Savings Program Board ("Board") at Sallie Mae Bank. Contributions to and earnings on the investments in the Savings Portfolio are insured by the FDIC on a pass-through basis to each account owner up to \$250,000, the maximum amount set by federal law. The amount of FDIC insurance provided to an account owner is based on the total of (a) the value of an account owner's investment in the Savings Portfolio; and (b) the value of all other accounts held by the account owner at Sallie Mae Bank, as determined by Sallie Mae Bank and FDIC regulations. Except for the Savings Portfolio, investments in IDEal - Idaho College Savings Program are not insured by the FDIC.

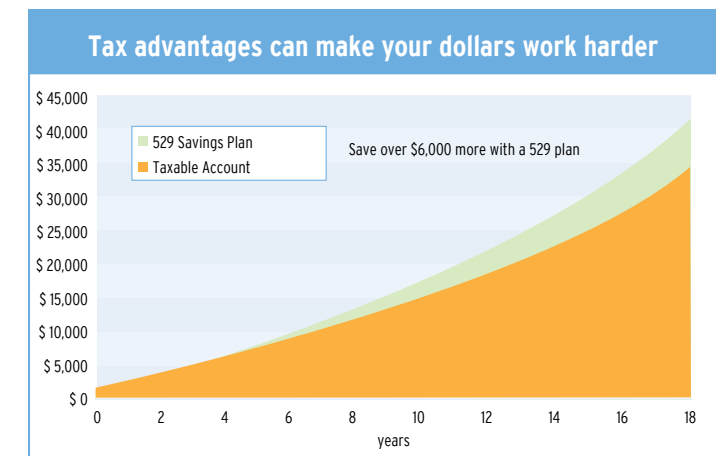

### What are the fees associated with IDEal?

IDEal has no commissions, loads, or sales charges. The total annual asset-based fee is 0.51% (\$5.10 per \$1,000 invested), and there is a \$20 annual account fee if neither the account owner nor the beneficiary is an Idaho resident.

### Why invest in a 529 plan?

Named after Section 529 of the Internal Revenue Code, 529 plans were specifically designed to help families save for college. Because they allow your savings to grow tax deferred and the withdrawals used for qualified educational expenses are tax free,<sup>2</sup> your money has the potential to stretch further than it could with a savings method that doesn't offer these same tax advantages.

The hypothetical example below illustrates the power of tax-free savings with a 529 plan. In both cases, it begins with an initial investment of \$2,500 and continues with monthly contributions of \$100. After 18 years, the tax-free account is worth more.<sup>6</sup>

<sup>6</sup> Assumptions: \$2,500 initial investment with subsequent monthly investments of \$100 for a period of 18 years; annual rate of return on investment of 5% and no funds withdrawn during the time period specified; taxpayer is in the 30% federal income tax bracket for all options at the time of contributions. This hypothetical is for illustrative purposes only. It does not reflect an actual investment in any particular 529 plan or any taxes or penalties payable/due upon a non-qualified distribution. A plan of regular investment cannot assure a profit or protect against a loss in a declining market.

*If you are not an Idaho taxpayer, consider before investing whether your or the beneficiary's home state offers any state tax or other benefits that are only available for investments in such state's qualified tuition program.*

IDeal is administered by the Idaho College Savings Program Board (Board). ABD, the program manager, and its affiliates, have overall responsibility for the day-to-day operations, including investment advisory and recordkeeping and administrative services. The Vanguard Group, Inc. (Vanguard) serves as Investment Manager for IDeal. Sallie Mae Bank serves as the Savings Portfolio Manager for IDeal. IDeal's Portfolios invest in either: (i) mutual funds offered or managed by Vanguard; or (ii) an FDIC-insured omnibus savings account held in trust by the Board at Sallie Mae Bank. Except for the Savings Portfolio, investments in IDeal are not insured by the FDIC. Units of the Portfolios are municipal securities and the value of units will vary with market conditions.

Investment returns will vary depending upon the performance of the Portfolios you choose. Except to the extent of FDIC insurance available for the Savings Portfolio, you could lose all or a portion of your money by investing in IDeal, depending on market conditions. Account Owners assume all investment risks as well as responsibility for any federal and state tax consequences.
