Their future is just ahead.

Prepare for it with Indiana529 Advisor.

A future filled with unlimited potential

Education can make a big difference in a child's life, from potentially greater lifelong earnings to a better quality of life. But tomorrow's education costs require careful planning today. Whether a child will be ready in 5, 10, or even 15 years, a tuition bill will be due before you know it. That's why Indiana529 Advisor can be a great way to save.

The smart way to save

Indiana529 Advisor is a tax-advantaged education savings program that can help you save for tuition, certain room and board costs, books, supplies, laptops/computers, and other qualified education and apprenticeship expenses.

There are important tax benefits available to you with a 529 savings plan: your assets grow tax-deferred and—when you're ready to withdraw your money for a qualified education expense—it is free from federal and state taxes.¹

Tax-deferred assets can help your money work harder.

Wondering about the impact of tax-deferred versus taxable assets? If you made an initial investment of \$2,500 and contributed \$200 each month for 18 years, a tax-deferred account could potentially have \$75,978 versus only \$66,822 in a taxable account. That's \$9,156 more for education.[‡]

[‡] Assumptions: \$2,500 initial investment with subsequent monthly investments of \$200 for a period of 18 years; annual rate of return on investment of 5% and no funds withdrawn during the time period specified; taxpayer has a 24% Federal income tax rate for all options at the time of contributions and distribution. This hypothetical is for illustrative purposes only. It does not reflect an actual investment in any particular 529 plan or any taxes payable upon distribution. Actual investment returns may be higher or lower than those shown.

Indiana529 Advisor: benefits for you and your student

Availability

Anyone can contribute to your account, the beneficiary can be any age and live in any state, and you can participate in the plan regardless of your income level.

Tax benefits

Earnings grow tax-deferred and your qualified withdrawals are tax-free.¹

In addition, Indiana taxpayers may be eligible for a state income tax credit of 20% of contributions to an Indiana529 Advisor account, up to \$1,500 annually (\$750 for married filing separately). You do not need to own the account to claim the tax credit—anyone who contributes to an Indiana529 Advisor account may be eligible.²

Gift and estate tax advantages

Contribute up to \$18,000 per beneficiary annually (\$36,000 for couples filing jointly) with no gift-tax consequence, or take advantage of a \$90,000 contribution (\$180,000 for couples filing jointly) that can be treated as if it was made over a 5-year period.³

Withdrawals

Use at any eligible public or private college/university, undergraduate or graduate program, qualified K-12 expense⁴ (up to \$10,000 per year/student), eligible vocational school or trade school, or an apprenticeship program that is registered and certified with the Secretary of Labor.

¹Earnings on nonqualified withdrawals may be subject to federal income tax and a 10% federal penalty tax, as well as state and local income taxes. Tax and other benefits are contingent on meeting other requirements and certain other withdrawals are subject to federal, state, and local taxes.

²This credit may be subject to recapture from the account owner (not the contributor) in certain circumstances, such as rollovers to another state's 529 plan, federal nonqualified withdrawals, withdrawals used to pay elementary or secondary school tuition for a school outside of Indiana, qualified education loan repayments, or rollovers to a Roth IRA account, as described in the Disclosure Booklet.

³In the event the contributor does not survive the 5-year period, a pro-rated amount will revert back to the contributor's taxable estate.

⁴Investments for Indiana529 Advisor are not designed for K-12 savings, and a withdrawal to pay K-12 tuition expenses at a school outside of Indiana may require the recapture of any Indiana state income tax credits previously claimed from the account owner (not the contributor), as described in the Disclosure Booklet.
