Seventy-three percent of parents identify paying for college as their top financial worry

That's more than Americans worry about any other financial issue, including retirement.¹ Yet, although 9 in 10 parents expect their child will attend college, just 57 percent are saving for college.²

That disconnect is worth talking about, especially as college costs continue to increase faster than inflation and financial aid has not kept pace with tuition hikes.³

¹ Jones, Jeffrey. "U.S. Parents' College Funding Worries Are Top Money Concern." Gallup. April 20, 2015. <http://www.gallup.com/poll/182537/parents-college-funding-worries-top-money-concern.aspx>.

This guide can help direct and inform these important conversations about saving for college.

Color-coded sections explore the unique savings situations and concerns of parents, grandparents and young professionals — and highlight how specific benefits of 529 College Savings Plans can help each group meet their college funding goals.

How much does college cost?

Probably more than you think

During the 2014-15 academic year families spent an average of \$24,164 on college — up 16 percent from the previous year. This was the largest increase since 2009-10.⁴

At these costs, “We’ll pay the tuition out of cash flow” or “We’re banking on financial aid” are most likely not viable college funding plans.

AVERAGE ANNUAL COLLEGE COSTS

\$20,090 In state, public four-year⁵

\$35,370 Out-of-state, public four-year⁵

\$45,370 Private nonprofit four-year⁵

\$67,000+ Some four-year private colleges⁶

A lack of planning means student loans to fill savings gaps

The fact that "**student** and **parent** borrowing" accounts for 20 percent of college funding denotes a widespread lack of college planning.⁷

Apart from home mortgages, student loan debt — \$1.3 trillion as of September 30, 2016 — is the largest form of debt in the United States and is quickly becoming a generational albatross.⁸

Today, 40 million young Americans struggle to pay off student loans, up from approximately 29 million in 2008.⁹ The median net worth of young households without student loan debt is seven times higher than the median net worth of young households with student loan debt.¹⁰

HOW THE TYPICAL FAMILY PAID FOR COLLEGE IN 2014–15⁷

And the average percent of total cost paid from each source

Saving for college means less borrowing — *not a big reduction in federal financial aid*

Roughly half of Americans have a college savings plan in place. These individuals end up saving 76 percent more than those who save without a structured plan.¹¹

A family's **income, not its savings**, is the greatest factor in determining eligibility for financial aid. And federal financial aid is a long shot for families with incomes of \$150,000 or more with any investments outside of retirement accounts.

Now, the good news: Uncle Sam's Expected Family Contribution (EFC) formula determines financial aid eligibility factors in a maximum of just 5.64 percent of parents' savings and 20 percent of the student's assets toward annual college costs according to FinAid.org.

So, if a family saves \$50,000 for college in the parents' names, eligibility for federal aid would be reduced by no more than \$2,800 in year one.

¹¹ Sallie Mae, "How America Saves for College 2016." 2016.
http://news.salliemae.com/files/doc_library/file/HowAmericaSavesforCollege2016FNL.pdf.

Let's evaluate college funding options

Deciding between various college savings products can feel like stepping into *Goldilocks and the Three Bears*. No one option fits just right — and for every benefit, there seems to be a trade-off.

Coverdell Education Savings Accounts offer tax-deferred growth and tax-free withdrawals, but there are contribution limits of \$2,000 a year and income phase-outs for parents. Custodial Accounts can be more tax efficient than saving in mutual funds, but the child controls the account and financial aid eligibility is more heavily impacted.

12.7 million college savers have decided the tax-advantaged **529 College Savings Plan** is the right choice.¹³ And 529 plans can be especially valuable for families in higher tax brackets who can afford to save all or a substantial portion of college costs.

¹³ College Savings Plans Network 529 Report, September 2016.
http://www.collegesavings.org/wp-content/uploads/2015/09/0926_CSPNReport-FINAL.pdf.

PERCENTAGE INCREASE OF AMERICANS SAVING FOR COLLEGE¹²

¹² Sallie Mae, "How America Saves for College 2016." 2016.

Comprehensive comparison of college savings options

2017 Rules	529 Plan	Coverdell Education Savings Accounts	UGMA/UTMA Custodial Accounts	Mutual Funds
Federal Gift Tax Treatment	Contributions treated as completed gifts, apply towards \$14,000 annual exclusion, or up to \$70,000 with 5-year election	Contributions treated as completed gifts; apply \$14,000 annual exclusion	Transfers treated as completed gifts; apply \$14,000 annual gift exclusion	No gift involved; direct payments of tuition not considered gifts
Federal Estate Tax Treatment	Value removed from donor's gross estate; partial inclusion for death during a 5-year election period	Value removed from donor's gross estate	Value removed from donor's gross estate unless donor remains as custodian	Value included in the owner's gross estate
Maximum Investment	Established by the program; some as much as \$300,000 per beneficiary	\$2,000 per beneficiary per year combined from all sources	No limit	No limit
Able to Change Beneficiary	Yes, to another member of the beneficiary's family	Yes, to another member of the beneficiary's family	No; represents an irrevocable gift to the child	Not applicable
Time/Age Restrictions	None unless imposed by the program	Contributions before beneficiary reaches age 18; use of account by age 30	Custodianship terminates when minor reaches age established under state law (generally 18 or 21)	None
Income Restrictions	None	Ability to contribute phases out for incomes between \$190,000 and \$220,000 (joint filers) or \$95,000 and \$110,000 (single)	None	None
Investments	Menu of investment strategies as developed by the program	Broad range of securities and certain other investments	As permitted under state laws	Mutual funds
Use for Non-Qualifying Expenses	Withdrawn earnings subject to federal tax and 10 percent penalty	Withdrawn earnings subject to federal tax and 10 percent penalty	Funds must be used for benefit of the minor	No restrictions

529 plans offer an unprecedented blend of tax efficiency and flexibility

Accounts compound tax-free, qualified distributions for higher education expenses are tax-free, and most states offer additional tax breaks.¹⁴

Assets can be reclaimed at any time by paying taxes and a 10 percent penalty on any account gains, or by transferring the account to another beneficiary.

Contribution limits are as high as \$400,000 per beneficiary. And it takes just \$50 to open an account.

Plans permit five years of gifts to a 529 beneficiary in a single year, without triggering the federal gift tax.¹⁵ That amounts to \$70,000 (\$14,000 annual gift exclusion x 5) for individuals and \$140,000 for married couples.

This federal financial aid formula means that, for a 529 account, no more than 5.64 percent of the account's value is considered when determining the Expected Family Contribution (EFC) toward college costs.

Click the color-coded tabs to learn more about the benefits of a 529 College Savings Plan.

¹⁴ Earnings on non-qualified withdrawals are subject to federal income tax and may be subject to a 10 percent federal penalty tax, as well as state and local income taxes. The availability of tax or other benefits may be contingent on meeting other requirements.

¹⁵ In the event the donor does not survive the five-year period, a pro-rated amount will revert to the donor's taxable estate. Rules regarding gifts and generation skipping transfer tax may apply in the case of a change in beneficiary. You should consult with your tax advisor when considering a change of beneficiary.

529 plan benefits appeal to different investors: Do you identify with any of these college savers?

are on different ends of the college funding spectrum. Susan & Tom Miller struggle to set aside money and are counting on scholarships for their high school student, while Michelle & John Smith already have college money set aside for their preschooler.

are big believers in education. Between them, they hold four college degrees and are proud to have educated their three children, with two of them completing MBAs. Longtime supporters of local education, they find nothing more appealing than helping fund the college educations of their four grandchildren and dream of creating an education legacy.

Just recently married, are considering pursuing graduate degrees but, perhaps because of their struggle with their own undergraduate loans, they worry about the cost. They also understand the importance of getting a head start on saving for college for the family they hope to have.

The Millers & The Smiths

The Millers who have not started to save for college and **the Smiths** who have actively saved for college both find tax-efficient and flexible 529 plans have a role to play in their college funding strategy.

Tax Advantages

On average, parents with a 529 plan save 89 percent more than parents using only a savings account.¹⁸

It's this simple...

529 plans offer tax-deferred investment growth and federal tax-free withdrawals when used to pay qualified higher education expenses at any educational institution where federal student aid is available.¹⁹

Eligible institutions include private colleges, public universities, community colleges, graduate schools and trade schools around the country. The school does not have to be located in the state sponsoring the 529 plan. Foreign schools may also be eligible.

In addition to tuition, assets in a 529 account can be used to cover a variety of qualified higher education expenses including fees, certain room and board costs, and required equipment and supplies, as well as certain qualified expenses for special-needs students.

¹⁸Sallie Mae, "How America Pays for College 2015." 2015.
<https://www.salliemae.com/plan-for-college/how-america-pays-for-college>.

¹⁹Earnings on non-qualified withdrawals are subject to federal income tax and may be subject to a 10 percent federal penalty tax, as well as state and local income taxes. The availability of tax or other benefits may be contingent on meeting other requirements.

Tax Advantages

529 plans have no age limits, so it's never too late to open an account and benefit from the 529's tax advantages. Even if the account's held for just a handful of years, the 529 plan's tax-deferred growth and tax-free

distributions for qualified higher education expenses can mean more money to pay for college.

And frontloading a 529 account can be an effective way for investors to reduce their taxable estate.²⁰

Tax Advantages Can Make Your Dollars Work Harder

Source: Ascensus College Savings.

Assumptions: \$2,500 initial investment with subsequent monthly investments of \$100 for a period of 18 years; annual rate of return on investment of 5 percent and no funds withdrawn during the time period specified; taxpayer is in a hypothetical 30 percent income tax bracket for all options at the time of contributions and distribution. This hypothetical is for illustrative purposes only. It does not reflect an actual investment in any particular 529 plan or any taxes or penalties payable/due upon distribution.

MAIN POINTS

- 1 Tax-deferred investment growth
- 2 Tax-free withdrawals to pay for qualified higher education expenses
- 3 Possible additional tax benefits in some states

²⁰ In the event the donor does not survive the five-year period, a pro-rated amount will revert to the donor's taxable estate. Rules regarding gifts and generation skipping transfer tax may apply in the case of a change in beneficiary. You should consult with your tax advisor when considering a change of beneficiary.

Account Control

As the account owner, you will have control over the 529 account and can determine how the money is invested and when the money is used.

If your child or grandchild, the “account’s beneficiary,” decides not to attend college, you, as the account owner, can change the beneficiary to another eligible “member of the family” (as defined under the Internal Revenue Code of 1986, as amended) with no penalty. The 529 account can also be left in the first beneficiary’s name, creating an education legacy as assets are passed down between generations.²¹

At any time, and for any reason, it’s also possible to take a non-qualified withdrawal of the account assets. Perhaps a parent loses a job, or unexpected health expenses mean a grandparent now risks running out of money in retirement. For non-qualified withdrawals, however, 529 account earnings would be subject to federal income tax and may be subject to a 10 percent federal penalty tax, as well as state and local income taxes.

Notably, other types of gifts (trusts, family partnerships, UGMA/UTMA accounts, etc.) are not revocable, making the 529 plan unique in this respect. What’s more, your 529 contributions are treated as completed gifts from you to the 529 account beneficiary, thereby removing assets from your taxable estate.²²

²¹ Rules regarding gifts and generation-skipping transfer tax may apply in the case of a change of beneficiary.

You should consult with a tax advisor when considering a change of beneficiary.

²² In the event the donor does not survive the five-year period, a pro-rated amount will revert to the donor’s taxable estate. Rules regarding gifts and generation skipping transfer tax may apply in the case of a change in beneficiary. You should consult with your tax advisor when considering a change of beneficiary.

Account Control

If savings remain unused in the 529 account, you can change the beneficiary of the account with no penalty or take a non-qualified withdrawal of the account earnings.

There is similar flexibility if the student receives a scholarship and doesn't need the money saved in the 529 account. If the scholarship covers only tuition, you can use the 529 account to pay for expenses such as room and board, books and other required supplies. If additional funds remain in the 529 account, you can take a non-qualified withdrawal. Earnings would be taxable but would not be subject to the 10 percent federal penalty tax.

MAIN POINTS

- 1 The account owner controls the 529 account
- 2 Non-qualified withdrawals are possible (with penalty) at any time
- 3 The beneficiary can be changed without penalty

Contribution Limits

Unlike retirement savings accounts like the Roth IRA or the Coverdell Education Savings Account, there are no income limitations for investing in a 529 plan.

Generally, only individuals (including the beneficiary) whose modified adjusted gross income for the year is less than \$110,000 (\$220,000 in the case of a joint return) can contribute to a Coverdell Education Savings Account. In contrast, higher-net-worth investors can receive all the federal tax benefits of investing in a 529 plan. Also, the higher the ordinary income tax bracket, the more money may be saved in taxes on tax-free qualified withdrawals.²³

≤ \$400,000 → 

Up to \$400,000 can be invested in a 529 plan account per beneficiary. (Each state sets its own limits.) In contrast, the federal government limits contributions to Coverdell Education Savings Accounts to just \$2,000 a year.

²³ Earnings on non-qualified withdrawals are subject to federal income tax and may be subject to a 10 percent federal penalty tax, as well as state and local income taxes. The availability of tax or other benefits may be contingent on meeting other requirements.

"Scholarships and grants funded 34 percent of college costs in 2015-16, the largest proportion of any resource used to pay for college in the past five years. As a result, families paid less out of pocket than they had in 2014-15." (p.9)²⁴

²⁴ Sallie Mae, "How America Pays for College 2016." 2016. http://news.salliemae.com/files/doc_library/file/HowAmericaPaysforCollege2016FNL.pdf.

Contribution Limits

  ≤ \$14,000

  ≤ \$28,000

Note, too, that anyone can contribute up to \$14,000 a year (\$28,000 if married) per beneficiary to a 529 plan account without triggering a federal gift tax. Moreover, a special federal gift tax exemption for 529 plans permits contributions of up to \$70,000 in one calendar year (\$140,000 if married and electing to split gifts) per beneficiary to be treated as if the contribution was made over a five-year period for gift tax purposes.²⁵

On the other end of the spectrum, for those who are just beginning to save for college, the SSGA Upromise 529 Plan has no enrollment fee and you can open an account for as little as \$50 a month with an Automatic Investment Plan or make an initial contribution of \$15. Even saving a small amount per month can pay off in the long run with the potential tax-deferred growth of a 529 plan.

MAIN POINTS

- 1 529 plans have no income restrictions for investing
- 2 Up to \$400,000 can be invested per beneficiary (max amounts may vary by plan)
- 3 Anyone can contribute up to \$14,000 a year (\$28,000 if married) per beneficiary without triggering a federal gift tax

²⁵In the event the donor does not survive the five-year period, a pro-rated amount will revert to the donor's taxable estate. Rules regarding gifts and generation skipping transfer tax may apply in the case of a change in beneficiary. You should consult with your tax advisor when considering a change of beneficiary.

Gifting

Parents, grandparents, aunts, uncles and friends can open a 529 account for a beneficiary.

Some families prefer to open the account themselves and invite friends and family to make contributions. In fact, Ugift® is an easy way for friends and family to contribute to a 529 account and there is no fee to contribute using Ugift. Gift contributions can be made online or by check, so there's no extra paperwork.

Anyone can contribute up to \$14,000 a year (\$28,000 if married) per beneficiary to a 529 account without triggering a federal gift tax. Moreover, a special federal gift tax exemption for 529 plans permits contributions of up to \$70,000 in one calendar year (\$140,000 if married

and electing to split gifts) per beneficiary to be treated as if the contribution was made over a five-year period for gift tax purposes.²⁶ That frontloaded contribution can be repeated every five years.

In particular, grandparents might choose to fund a 529 plan with Required Minimum Distributions (RMDs) from an IRA that they do not need to meet expenses. In a 529 account, any earnings on those re-invested assets would grow tax-deferred whereas earnings would be taxed should they be deposited in a certificate of deposit or brokerage account.

²⁶In the event the donor does not survive the five-year period, a pro-rated amount will revert to the donor's taxable estate. Rules regarding gifts and generation skipping transfer tax may apply in the case of a change in beneficiary. You should consult with your tax advisor when considering a change of beneficiary.

²⁷IRS, "Estate Tax." Accessed on March 3, 2016.

<https://www.irs.gov/Businesses/Small-Businesses-&Self-Employed/Estate-Tax>.

ACCELERATED GIFTING (EXAMPLE)

\$28,000^{Joint gift} x 5^{Years}

\$140,000 Accelerated gift benefit allowed per beneficiary

Grandparents open a 529 account for each grandchild and distribute their funds equally throughout (\$140,000 in this example).

\$140,000 x 8^{Grand children}

\$1,120,000

Removed from the grandparents taxable estate, in just one year with no impact on their federal lifetime gift tax exemption of \$5.45 million,²⁷ all while retaining control of the assets.

Giftting

Importantly, while 529 contributions are treated as completed gifts from a tax perspective, it's always possible to take a non-qualified withdrawal of the account assets.

Because the 529 account owner remains in charge of the account, opening 529 plans for grandchildren can be a useful way for grandparents to move money out of their estate. In fact, a 529 account can be a great alternative to an irrevocable trust with the student as the beneficiary. Again, using the special gift tax exemption by frontloading a 529 account with contributions up to \$70,000 (\$140,000 if married and electing to split gifts) per beneficiary in one calendar year can reduce a taxable estate quickly because the money gets out of your estate faster than if you made contributions each year.

For example, grandparents who gift \$140,000 to open a 529 account for each of their four grandchildren immediately reduce their estate by \$560,000 without gift tax implications. And they can repeat the same contributions every five years.²⁸

529 plans also typically have low administrative fees relative to the costs of establishing and administering a trust. And if held in the grandparent's name, a 529 account does not count as the student's asset when applying for federal financial aid, although distributions taken from a grandparent's account are generally reportable as student income.

MAIN POINTS

- 1 Gifting provides the ability to create an education legacy
- 2 Anyone can contribute up to \$14,000 a year (\$28,000 if married) per beneficiary
- 3 A front-loading provision permits five years of contributions in one year

²⁸ In the event the donor does not survive the five-year period, a pro-rated amount will revert to the donor's taxable estate. Rules regarding gifts and generation skipping transfer tax may apply in the case of a change in beneficiary. You should consult with your tax advisor when considering a change of beneficiary.

Financial Aid

Financial aid is a broad term that covers need-based federal grants, non-need-based merit scholarships, low interest rate federal loans, need-based grants from colleges and work study.

Some families also take out private loans. The bottom line is that not all financial aid is a “gift” and interest rates on loans can vary dramatically, based on whether they are government-subsidized or private. The Free Application for Federal Student Aid (FAFSA) determines need-based aid. And, it’s good news that this FAFSA analysis treats a 529 account for a dependent student as a parental asset, assessed at a maximum 5.64 percent when determining the Expected Family

Contribution (EFC) toward college costs. The same holds true for young professionals saving for their own college costs. Assets held in the student’s name are assessed at 20 percent when calculating the EFC.²⁹

Withdrawals from your 529 account do not add to your family’s income, which would reduce the next year’s eligibility for financial aid. Note that withdrawals from a 529 account opened by a grandparent or

another non-parent do, indeed, count as student income. For that reason, many families that receive financial aid choose to reserve grandparent and other accounts for the final year of college when they would not be filing a FAFSA to qualify for financial aid for the following year.

²⁹Saving for College LLC, “Financial Aid Basics.” Accessed on January 15, 2016.
http://www.savingforcollege.com/financial_aid_basics/financial_aid_and_your_savings.php.

Financial Aid

As a student asset, 20 percent of the value of an UGMA/UTMA is factored into the family's annual EFC. 529 assets are assessed at just 5.64 percent for the EFC. The difference between 5.64 and 20 percent often prompts families to roll over money from a UGMA/UTMA account or Coverdell Education Savings Account (both held in students' names) into a 529 account (to be held in a parent's name).

If an UGMA account is worth \$10,000, your family's EFC increases by \$2,000, meaning if you qualify for federal financial aid, you receive less in federal grants, work-study and subsidized loans. If, however, you move the money into a 529 plan at any time before filing the FAFSA, the impact on your EFC is just \$564, resulting in a greater potential for need-based federal financial aid.

MAIN POINTS

- 1 A 529 account is treated as parental asset and assessed at only 5.64 percent of the Expected Family Contribution
- 2 College savings held in a student's name are assessed at 20 percent
- 3 Withdrawals from a 529 account do not add to your family's income (those from a grandparent's account count as student's income)

SSGA Upromise 529 College Savings Plan

Comprised of Exchange Traded Funds (ETFs),³⁰ the SSGA Upromise 529 Plan offers a number of saving options — from age-based portfolios that require little in the way of management to portfolios investors can customize to suit their unique needs.

8 COLLEGE DATE PORTFOLIOS

Simply select the year you expect the student (the account beneficiary) to start college. These portfolios adjust automatically from more aggressive to more conservative as the student gets closer to college age (and closer to the selected college start date).

3 RISK-BASED PORTFOLIOS

These portfolios offer built-in tactical asset allocation and broad diversification.

1 Aggressive

2 Moderate

3 Conservative

15 STATIC PORTFOLIOS

Choose from 15 SPDR® ETFs to create your own personalized investment mix.

SAVINGS PORTFOLIO

Appendix

What's Your Expected Family Contribution (EFC)?

Whether you have not started to save for college or are already on the road to funding college, it's important to know your Expected Family Contribution (EFC). Without taking the time to fill out the Free Application for Federal Student Aid (FAFSA), this chart can ballpark your EFC.

STEP 1 Locate your income in the AGI column.

STEP 2 Find the column at the top of the table that corresponds to the number of dependent children you have and follow that column down to the row that corresponds to your Adjusted Gross Income (AGI). The intersecting number is your EFC based only on parental income, not investments, retirement plan assets, or student income – which could increase your EFC.

For more information:

fafsa.ed.gov

AGI	Number of Dependent children			
	1	2	3	4
\$30,000	\$1,088	\$0	\$0	\$0

How to Apply for a Scholarship
<https://bigfuture.collegeboard.org/pay-for-college/grants-and-scholarships/how-to-apply-for-a-college-scholarship>.

To be considered for financial aid — money given or loaned to you to help you pay for college — you have to apply. Apart from applying to the college itself, the financial aid application process usually has its own forms, deadlines and requirements — and you don't wait to be admitted to a college before applying for financial aid.

Definitions

Qualified Educational Expenses

include amounts paid for tuition, fees and other related expenses for an eligible student that are required for enrollment or attendance at an eligible educational institution.

Source: <https://www.irs.gov/pub/irs-pdf/p970.pdf>.

Coverdell Education Savings Account

is a tax-deferred trust account created by the US government to assist families in funding educational expenses for beneficiaries 18 years old or younger. While more than one account can be set up for a single beneficiary, the total maximum contribution for any single beneficiary is \$2,000.

Source: <http://www.investopedia.com/terms/c/coverdelllesa.asp>.

Custodial Account is an account created at a bank, brokerage firm or mutual fund company that is managed by an adult for a minor that is under the age of 18 to 21 (depending on state legislation).

Source: <http://www.investopedia.com/terms/c/custodialaccount.asp>.

Required Minimum Distribution (RMD)

is the minimum amount you must withdraw from your retirement account each year. You generally have to start taking withdrawals from an IRA, SEP IRA, SIMPLE IRA, or retirement plan account when you reach age 70½.

Source: <https://www.irs.gov/Retirement-Plans/Retirement-Plans-FAQs-regarding-Required-Minimum-Distributions>.

Asset Allocation The implementation of an investment strategy that seeks to balance risk versus reward by adjusting the percentage of each asset class in an investment portfolio according to the investor's risk tolerance, financial goals and investment horizon.

FOR PUBLIC USE. IMPORTANT RISK INFORMATION

Information represented in this piece does not constitute legal, tax or investment advice. Investors should consult their legal, tax and financial advisors before making any financial decisions.

The statements and opinions expressed are subject to change at any time, based on market and other conditions. State Street cannot guarantee the accuracy or completeness of any third-party statements or data.

Investing involves risk including the risk of loss of principal. Investment returns will vary depending upon the performance of the portfolios you choose. Except to the extent of FDIC insurance available for the Savings Portfolio, you could lose all or a portion of your money by investing in the Plan, depending on market conditions. Account owners assume all investment risks as well as responsibility for any federal and state tax consequences.

ETFs trade like stocks, fluctuate in market value and may trade at prices above or below the ETFs' net asset value. Brokerage commissions and ETF expenses will reduce returns.

Frequent trading of ETFs could significantly increase commissions and other costs such that they may offset any savings from low fees or costs.

Diversification does not ensure a profit or guarantee against loss.

The SSGA Upromise 529 Plan (the "Plan") is administered by the Board of Trustees of the College Savings Plans of Nevada (the "Board"), chaired by Nevada State Treasurer. Ascensus Broker Dealer Services, Inc. (ABD) serves as the Program Manager. ABD has overall responsibility for the day-to-day operations, including distribution of the Plan and provision of certain marketing services. State Street Global Advisors (SSGA) serves as Investment Manager for the Plan except for the Savings Portfolio, which is managed by Sallie Mae Bank, and also

provides or arranges for certain marketing services for the Plan. The Plan's portfolios invest in either (i) Exchange Traded Funds and mutual funds offered or managed by SSGA or its affiliates; or (ii) a Federal Deposit Insurance Corporation (FDIC)-insured omnibus savings account held in trust by the Board at Sallie Mae Bank. Except for the Savings Portfolio, investments in the Plan are not insured by the FDIC. Units of the portfolios are municipal securities and the value of units will vary with market conditions.

State Street Corporation's financial products are not sponsored, endorsed, sold or promoted by SPDJI, Dow Jones, S&P, their respective affiliates and third-party licensors and none of such parties make any representation regarding the advisability of investing in such product(s) nor do they have any liability in relation thereto, including for any errors, omissions or interruptions of any index.

For more information about the SSGA Upromise 529 Plan ("the Plan") download the Plan Description and Participation Agreement or request one by calling 1-800-587-7305. Investment objectives, risks, charges, expenses and other important information are included in the Plan Description; read and consider it carefully before investing. Ascensus Broker Dealer Services, Inc. ("ABD") is distributor of the Plan.

Before investing in the Plan, you should consider whether your client or the client's beneficiary's home state offers a 529 plan that provides its taxpayers with favorable state tax and other benefits that are only available through investment in the home state's 529 plan.
